As a BT Wholesaler with over 20 years of experience, we specialise in:

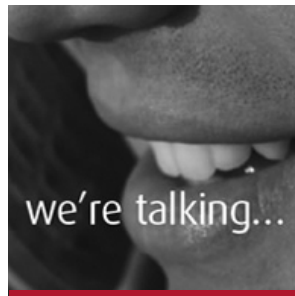

### Lines, Calls & New Installs

We provide expert landline communication solutions to enhance your business with the emphasis on savings without compromising on efficiency or service. The Calls and Lines service allows line rental (analogue and ISDN) and call traffic to transfer to DiALECT Telecom with no disruption to service backed up by good old fashioned customer service.

### VOIP & Feature Plus

FeaturePlus is a hosted telephony solution designed for the small / branch office and home offices. It enables a business to administer and control its telephony service through an on-line control panel. Through having complete on-line control of the service and its features - such as call forwarding, call transfer and voicemail-to-email - a user can ensure that, no matter what and wherever they are, they will never lose a call.

### 0845 Numbers

These are ideal for a sole trader or small Company to show a bigger market presence, at an extremely cost effective rate.

### Bulk SMS Text Messaging

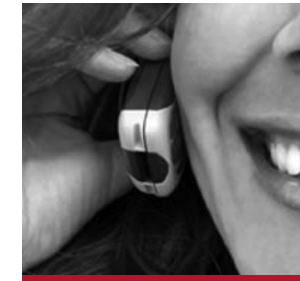

SMS is the fastest, most cost effective marketing communication tool in the world. With 85% of Europe's population owning a mobile phone, what better way to reach your audience? When a Bulk SMS campaign is aimed and delivered at the right time to the right audience, the response rates are enormous.

### Business Broadband

DiALECT Telecom offer various business broadband packages specifically tailored for the small business user.

- Broadband Benefits Fast, reliable connection\*
- Always on, 24 hours a day, 365 days a year
- Ensures your phone line is free for voice calls or fax
- No download limits\*\*

\* Broadband speed is dependent on line length and quality. \*\* Subject to fair usage policy.
